

CARPARK DECKING

MINI PROJECT BROCHURE

ABOUT US

For over twenty years, DC Flooring has redefined industry standards, emerging as the go-to supplier and installer of premium-quality flooring across the U.K. and beyond. Rooted in a customer-centric ethos and fuelled by unparalleled craftsmanship, our journey is characterised by a relentless pursuit of excellence.

STATION HILL RAMP & CARPARK

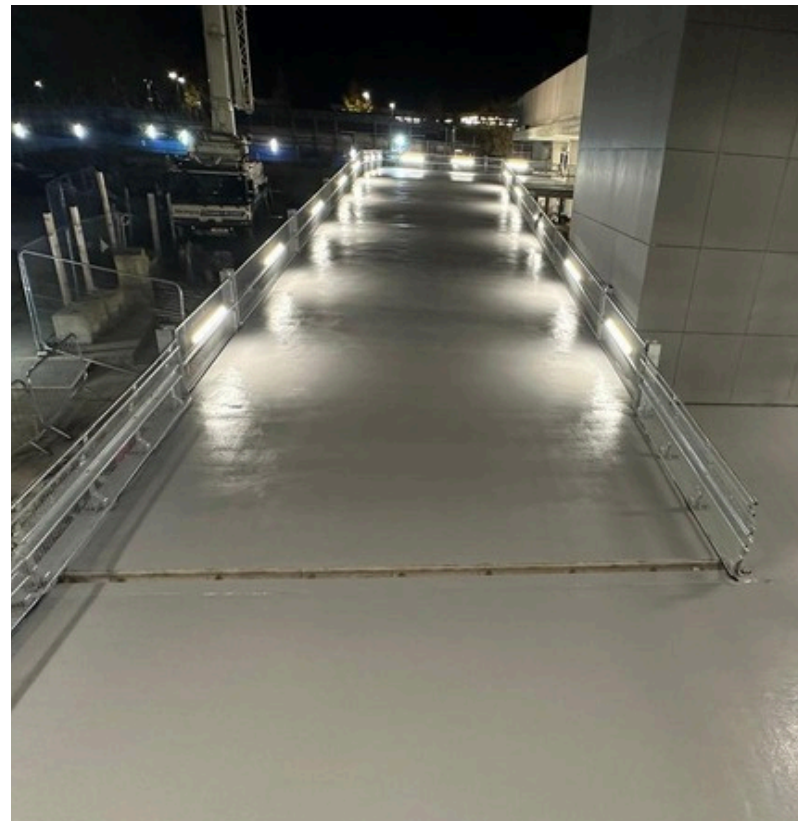

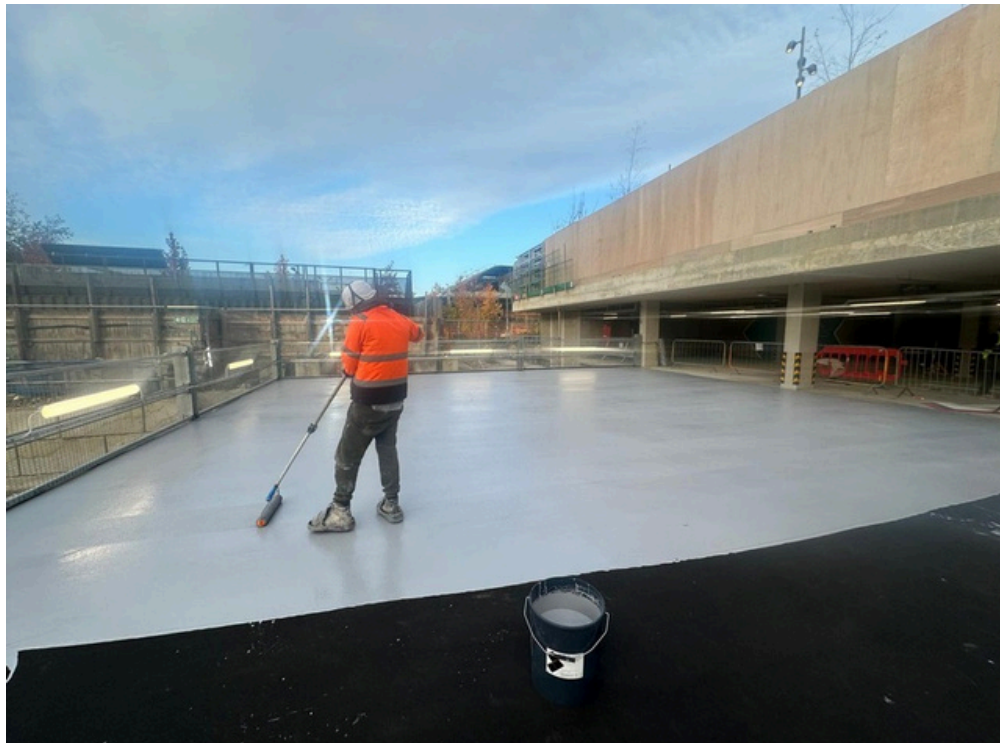

Levels 1 & 2 | 3,200m²

We completed the installation of a Deckmaster HFS ID Traffic Deck System across both levels of the Station Hill car park.

Completed within 2 months, the project presented challenges due to the uneven substrate. To achieve a suitable surface for the traffic deck system, a scratch coat was applied throughout both levels, creating a consistent and durable base for the finished system.

On the ramps the Deckmaster ID System was used.

PARKING

MAX HEIGHT 2.1m

BRIGHTON CARPARK

1800m² | 4 Weeks

Installed Deckmaster System R across 1800m². Due to excessive slab movement, additional bandage joints were incorporated to accommodate movement and ensure long-term system performance.

DECKMASTER SAMPLE SCRATCH COAT IN READING

A Deckmaster system sample was completed in Bristol to demonstrate the benefits of applying a scratch coat to the open, uneven concrete substrate.

Completed in just a few hours, the sample showed the client how the scratch coat could create a more uniform and consistent finish.

LONDON CARPARK

System: Deckmaster System ID

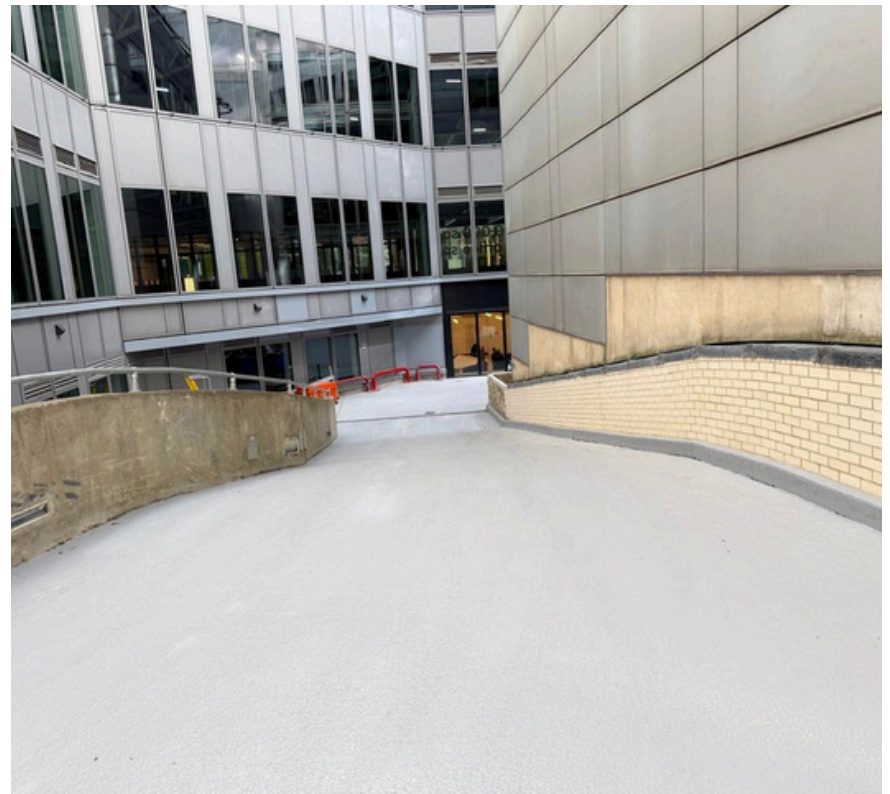

Location: London

Area: 700m²

Duration: 4 weeks

A 700m² car park in London completed using the Deckmaster System ID, delivering a durable, slip-resistant traffic deck designed for high-traffic car park environments.

CROWN CARPARK

450m² | 2 weeks

Refurbishment of an existing car park, including re-concreting the poor existing slab and completing new line marking to provide a clean, durable and refreshed finish.

Let us bring your vision to life.
